Dough Mixer

Cut down on food preparation time with your kitchen with Commercial Stand Mixer. Perfect for your commercial establishment whether it be a restaurant, bakery or school canteen, the mixer features three speed settings, handwheel bowl-lift control and a large 30L stainless steel mixing bowl for all your mixing needs. And in addition to the standard wire whisk, a flat beater and dough hook are included to help you thoroughly mix, knead, and whip all the required ingredients for your favorite baked treats. The attachments are easy to insert by simply pushing up and twisting into place, and thus easy to switch as well. Not only does the mixer speed up cooking time, it makes cleaning up and maintenance easier with its all-metal body. And no matter how intensive the mixing, you can be assured of safety with the bowl safety guard that prevents fingers and objects getting caught, and the sturdy base.
